ABOUT US

Systems Integration, Inc. (SI), is a HUB Certified engineering service provider that has been serving its clients for 21 years from its base in Arlington, Texas. We currently maintain a longstanding staff of 20 and have employed as many as 130. Our annual revenues average \$3M and have ranged as high as \$12M. Our core business is designing and implementing state of the art engineering processes to improve, modernize or modify the product lines that our customers produce. We specialize in providing custom “one-of-a-kind” solutions for new and challenging problems. SI thrives on the ability of its leadership to cultivate and glean ideas to maximize our clients’ competitive edge, adding enduring value and profitability.
